Superior because	· KEAKOU MD handquantons command of	

25X1	1.	Superior headquarters: KRAKOW MD headquarters, commanded
25X1		by a Polish general.
25X1 25X1 25X1		the MD headquarters was actually run by a Soviet colonel. Although wearing Polish uniforms, Soviet officers also held other key positions.

25X1

- 3. Location: On the northern bank of the Vistula River, west of a railroad bridge still under construction and south of Grzegerzecka Street. The motor park installations were being rebuilt on the site of a partially destroyed former German motor park. There was a railroad spur track.
- 4. <u>Personnel:</u> CO: Capt STRASSER, a Pole.

 One first lieutenant, 10 Folish NCOs and about 40 German PWs.
- 5. Equipment: About six workshops with modern machinery abandoned by the German occupation troops.
- 6. Notor vehicles: 500 motor vehicles, most of them of SIS make. Other vehicles, mostly old ones some of which had apparently been salvaged from battlefields, continued to arrive at the motor park. About 100 new jeeps and some two-wheel trailers of US make were also stored there. As the motor vehicles were stored there and maintained for possible use, only small amounts of gasoline were required. No storage facilities for gasoline were seen in the motor park area.

7. Other rolish units: The barracks of the Folish 16th Inf Regt were located in the northwestern sector of the city. Soviet rifles with folding bayonets were observed with the troops of the regiment. The PW learned from Foles that Soviet officers previously holding the position of battalion commanders had been replaced by rolish officers.

25X1 Comment:

The report refers to the Folish Army motor park of the 5th MD (KMAKOW), which, as a permanent installation, has a motor vehicle repair shop of its own. The data on personnel, equipment and motor vehicles stored there appears credible.

25X1

The 16th Inf Regt is known to be located in MRAKOW; it is assigned to the 6th Inf Div, KRAKOW.
